Comments in Opposition to Proposed Rulemaking

Secretary:

Central Valley Educational Services, Inc. hereby objects to the above-referenced proposed rulemaking and offers the following comments in the above-referenced proceeding.

Central Valley Educational Services, Inc. filed application number BPED-881017MD for a construction permit to build a new FM station on Channel 276-A at Firebaugh, California. This application is currently the subject of a Petition for Reconsideration filed by Central Valley Educational Services, Inc. which was filed on or about August 17, 1990.

Central Valley Educational Services, Inc. notes that the proposed rulemaking seeks to move Channel 276-A to Oakhurst, California, so that it can be used for a 6Kw Class A operation for Radio Station KAAT(FM). Central Valley Educational Services, Inc. submits that this would be a waste of the radio spectrum as it relates to Channel 276-A. Central Valley Educational Services, Inc. intends to upgrade Channel 276-A at Firebaugh, California, to a Class B-1 when Central Valley's above-referenced application is granted. This would be a far better use of Channel 276 than to utilize it for a Class A operation at Oakhurst, California. Further, it appears that California Sierra Corporation can operate Radio Station KAAT (FM) at 6Kw by either moving its antenna site on its current Channel 296-A or there are other channels available for use at Oakhurst for a 6Kw operation for KAAT(FM). Central Valley requests that

the Commission deny the proposed rulemaking. However, if the Commission is inclined to consider the proposed rulemaking, Central Valley requests that Channel 276 be allotted to Oakhurst as a B-1 Channel as a second FM service available for application by any interested party. Channel 276 will fit as a B-1 at Oakhurst and the proposed rulemaking is an unprotected upgrade. If Channel 276 is allotted to Oakhurst, it should be available for application by any interested party,
